Chapter : Lights! Camera! Action!

A producer is in charge of raising the money for the film and managing it. Even before the script is written, the production team must raise money for the film. A producer also arranges for the film to be shown in theatres around the world when it is completed.

The artistic leader of a team making a film is the director . A director makes all the decisions for the film, including the casting as well as how scenes should be shot. A director is usually the final authority on matters related to the script.

A screenwriter writes everything from the descriptions in the scenes to the dialogues. The creativity of the screenwriter makes the story of a film hold the interest of the audience.

Stunt people perform difficult or dangerous actions, often in place of the stars. The next time you watch a film, be sure to read the names of the people who have put the film together, in the end credits!

A cinematographer , also called a director of photography, is responsible for creating the overall look of the film, including the photography and the light effects. The cinematographer of Mad Max: Fury Road made the landscape seem like a world destroyed by nuclear war. This played a big role in making the film successful.

Make-up and costume designers are in charge of how actors look in the film. Rishi Kapoor's extensive ageing make-up for his character in the film Kapoor & Sons took 3–5 hours every day. It was done by renowned Hollywood make-up artist Greg Cannom.

A film editor carefully selects the best shots, edits them, and arranges them to create the scenes of a film. He or she works closely with the director, cinematographer, and sound editor. It is an editor's job to give a film its final shape.
