

Summer Holiday Homework

CLASS - VI

Kaushal Bodh Project Work: Simple Machine (Catapult)

Prepare a working model of a catapult using ice cream sticks, rubber bands, and an ice cream spoon. Assemble the model neatly by following the steps given below:

Step 1: Stack 5-6 ice cream sticks and tie them with rubber bands at both ends.

Step 2: Tie two sticks together at one end with a rubber band.

Step 3: Place the stacked sticks between the two loose sticks.

Step 4: Fix the spoon using a rubber band.

Your catapult is ready.
