

# **Summer Holiday Homework**

## **CLASS - VII**

### **Kaushal Bodh Project Work**

**Topic:** Plant Nursery

#### **Objective**

Students will learn about plant growth and develop responsibility towards nature by growing and caring for a plant at home.

#### **Activity**

- 1 Take a small pot or reuse a plastic bottle/container.
- 2 Fill it with soil and plant seeds or a small sapling.
- 3 Keep the plant in sunlight and water it regularly.
- 4 Observe the plant's growth during the summer vacation.
- 5 Decorate your pot creatively.

#### **Materials Required**

- Pot or plastic bottle
- Soil and compost
- Seeds or sapling
- Water

#### **Conditions Needed for Plant Growth**

- Sunlight
- Water
- Air
- Nutrient-rich soil

#### **Important Instruction**

Students must bring their decorated plant pots to school after the summer vacation for observation and project assessment.

#### **Conclusion**

This activity will help students understand the importance of plants, care for the environment, and learn basic gardening skills.
